**“To help everyone with a learning disability or autism embrace new opportunities, lead the fulfilling lives they want and actively contribute to their local community.”**

# Employability

We want people with a learning disability or autism to feel valued and respected in the workplace.

Our dedicated team will enable job seekers to obtain work tasters with an employer of their choice, with the ultimate aim of securing paid employment.

## We help to:

- Liaise with individual employers on a regular basis in negotiating and providing employment opportunities.
- Provide appropriate advice and support through our Job Clubs.
- Create a range of employment / work experience opportunities.
- Support job seekers through time-limited work tasters.
- Provide ongoing monitoring support throughout employment.
- Identify areas of potential difficulty and work with employees and employers to prevent job loss.
- Liaise with DWP benefits personnel to ensure that people are not financially disadvantaged prior to seeking paid employment.
